City of Austin c/o Elaine Ramirez
City of Austin Board of Adjustment
One Texas Center
505 Barton Springs
Austin, Texas 78704

RE: 2803 Edgewater Drive - BOA request to:

1. Increase impervious cover per LDC 25-2-551(c)(3)(c) from 5% to 66% in the 25-35% slope category
2. Increase impervious cover per LDC 25-2-551(e)(2) from 0% to 29% in the 35% slope category

Dear Board of Adjustment Commissioners:

My client is requesting a variance to exceed the allowable impervious coverage on a 13,935 SF lot.

The impervious coverage numbers are high due to the required calculation methodology per 25-2-551 (d); however, the proposed *gross lot area*'s impervious coverage is 39% IC of the ~14,000 SF lot. The property owner requests the Board review the requests and keep in mind the lot's steep topography and non-conforming lot status among other hardships unique to this property.

Reasonable Use

- The property owner is requesting increased impervious cover to accommodate a proposed single-family structure and associated improvements. To do so in a reasonable manner, the aforementioned impervious coverage percentages are requested.
- This is a fair and reasonable use in *Lake Austin* zoning category as that zoning category specifically prescribes development of a residential nature.
- The area proposed for the new residence is the flattest area of the lot. The proposed improvements are in the most reasonable location.
- The lot is so steep that the allowable square footage and related impervious coverage amounts far exceed what is allowed by code. This is unreasonable. The project proposes the most reasonable use of the lot.

Hardship

- The original Austin Lake Estates plat was approved in 1960. At that time part of the plat was within the full purpose jurisdiction of the City of Austin while the remainder portion of the plat was within Travis County. Any land under the 504.9' was within COA jurisdiction at that time. Today the entire plat is within COA full purpose jurisdiction by way of the City's annexation of the remainder of the lots within Lake Austin Estates including this one, lot 8.
- The platted lot size of the subject lot 8 @ 2803 Edgewater Drive is 13,935 SF. This lot was conforming to the regulations in place in 1960.
- The platted subdivision contemplated single-family residential projects; however, such projects are not achievable when Lake Austin impervious cover slope calculations are applied per 25-2-551.
- Per Ordinance No. 84-0930 adopted in September 1984, the city changed the zoning from "A" *First Height and Residential* to *Lake Austin* zoning. "A" zoning was essentially the same as today's SF-2 zoning, which calculates impervious cover at 45% of gross lot area vs. *Lake Austin* zoning's maximum allowances per slope category. This not an insignificant change to entitlements associated with this site or many others along the east and west banks of the lake.
- This city-initiated rezoning effectively rendered the lot unbuildable without a variance(s) issued by the city.
- The property owner has a pending Chapter 245 Vested Rights application on file with the City. We cannot get any relief from the City. Requests for an appeal to the initial denial have gone unanswered. The BOA is the owner's last resort before seeking legal remedy.
- At the time of City-initiated rezoning the lot did not have the required:
 - 100' of street frontage per COA LDC 25-2-492(d)
 - One (1) acre minimum lot size per COA LDC 25-2-492(d)
- Changing the zoning from "A" to "LA" rendered the lot substantially less valuable.
- Taxes have been paid on this land for decades. That begs the question of what is equitable and fair when the LA zoning standards are applied to a platted lot recorded in Travis County or a lot which received a legal lot determination from the City, and as such, recognized as a legal buildable lot.
- The site has not been developed, but should be afforded the opportunity to continue the single-family development contemplated in the 1960 plat recorded with Travis County.

- The lot also has substantially steep terrain, which precludes any practical use of the property under the current LA zoning regulations.
 - There is no 0-15% slope
 - There is no 15-25% slope
- **The 25-35% slope area is 3,938 SF land area. That allows 196 SF IC to build a house on a ~14,000 SF lot. The request proposes 2,592 SF / 66% IC.**
- **The 35% slope area is 10,043 SF land area. That allows 0 SF IC. The request proposes 2,877 SF / 29% IC**
- The 25-35% slope category comprises 28% of the 13,935 SF lot.
- The 35%+ slope category comprises 72% of the 13,935 SF lot.
- This lot is not on the water. It is approximately 100' from Lake Austin.

Not General to the Area

- There are no known lots in the immediate area with the combined hardships of topography and no frontage on Lake Austin which prohibit a significant amount of land from being utilized in a reasonable manner.

Area of Character

- Any construction will be in keeping the varied construction styles found throughout west Austin. There will be no adverse impact to adjacent properties.

I ask the Commission take into consideration the aforementioned statements and approve the requested variances for the proposed impervious coverage percentages in the 25-35% and 35%+ slope categories in order to construct a single-family residence with associated improvements.

Sincerely,

David C. Cancialosi, Agent for Owner

Elaine, as far as I recall, the proposed plans for both Edgewater and Westlake Drive propose only driveway/access in the 35% slope category in accordance with 25-2-551-E.

Walk with courage.

EDGEWATER DR. (GENERAL CONDITIONS)

September 15, 2019

Dear Neighbor,

We are Mark and Holly Odom, new owners of Lot 8 with address 2803 Edgewater Drive in Lake Austin Estates neighborhood. We currently live at 2121 Saratoga Drive and have been residents in this neighborhood since 2011. We have also been active members of the Community Lake Park since 2011 and Mark has been a board member for the last two years. We have two children, ages 10 and 6.

It has been our dream to live closer to the lake and build a new house for our family. Mark is a licensed Architect and has a design firm, Mark Odom Studio.

We are writing to ask for your consideration and help as we are seeking a variance to the City of Austin Board of Adjustments regarding code Section 25-2-551 LAKE AUSTIN (LA) DISTRICT. The lots mentioned are currently unbuildable due City of Austin Zoning (LA) with its limitations of Impervious Square Footage (manmade surface that doesn't absorb water). Per zoning code, the lot currently allows for .014 % (196 sf) of impervious square footage and our variance request would allow between 38% & 43% impervious square feet total. Our goal is to build an estimated 2500-3000 sf house and use the rest for driveway, deck, walkway and pool. We could not build a larger house because there would not be enough impervious cover for critical items like walkways, deck etc. We have a track record of building site-specific and neighborhood considerate work (our renovation and addition of a studio above the garage at our current home is one example).

We are currently needing signatures by October 10, 2019 to make our appointment deadline. Our hearing with the City of Austin will be in October 2019 in front of the Board Of Adjustments.

We would be most grateful if you would sign below and return via email. If you receive this and live in the neighborhood we would also be happy to pick it up — or you may drop it off in our mail-box at the address below.

We are happy to answer any questions you may have. Thank you for your time and consideration,

Mark and Holly Odom
2121 Saratoga Drive,
Austin, TX 78733
